

Plasma Physics and Controlled Fusion

iopscience.org/ppcf

Deadline
19 September
2014

Call for papers

Cluster issue featuring papers from the 17th International Congress on Plasma Physics, Lisboa, 15–19 September, 2014

Your invitation to submit

Plasma Physics and Controlled Fusion (PPCF) is delighted to announce that it will be publishing a selection of papers from the 17th International Congress on Plasma Physics (ICPP 2014). All speakers are encouraged to submit papers to this issue. The issue—to be published in the first quarter of 2015—will cover a wide range of aspects on fundamental plasma physics, fusion plasmas, astrophysical plasmas and plasma applications.

Regular research papers in PPCF can be up to 8 pages (at approx. 900 words per page) in length, including space for figures, graphs and tables (figures are equivalent to about 300 words each). Each corresponding author will receive a complimentary copy of the issue.

We encourage colour figures and multimedia clips for the online version of the special issue, for which there is no charge. As with our regular submissions there will be no page charges. You are invited to submit your article by 19 September 2014. Submissions received after this date will be considered for the journal but may not be included in the special issue. All submitted articles must fit within the scope of PPCF and will be fully refereed to the journal's usual high standards.

The issue will be widely promoted to the plasma physics community, ensuring that your work receives maximum visibility. As a matter of exception, the special issue will be available free of charge on the journal website for the first 90 days of publication to increase the readership and impact of the issue.

Guest editors

- **Professor Tito Mendonça**
IPFN, Instituto Superior Técnico, Lisboa
- **Professor Jorge Loureiro**
IPFN, Instituto Superior Técnico, Lisboa

How to submit your paper

- Use our submission facility at
<http://mc04.manuscriptcentral.com/ppcf-iop>

All submissions should be clearly marked '17th International Congress on Plasma Physics'.

Detailed information about how to submit an article for publication in the journal can be found via our website, at <http://mc04.manuscriptcentral.com/ppcf-iop>.

About Plasma Physics and Controlled Fusion

Published every month, *Plasma Physics and Controlled Fusion* has one of the highest impact factors in the field (2.369 ISI 2012) and covers all aspects of the physics of hot, highly ionized plasmas. This includes results of current experimental and theoretical research on all aspects of the physics of high temperature plasmas and of controlled nuclear fusion, including the basic phenomena in highly ionized gases in the laboratory, in the ionosphere and in space, in magnetic-confinement and inertial-confinement fusion, as well as related diagnostic methods.

Further information

For further information, or to request a free sample of the journal, visit www.iopscience.org/ppcf or e-mail the *Plasma Physics and Controlled Fusion* publishing team at ppcf@iop.org.
